

UK Product Name MAPIT Facial Cream Anti-Age **Code Name** MAPITFCA
Availability Stock item in UK

Description Anti-Wrinkle Formula
 Anti-Age Face Cream is a natural liquid crystal emulsion that forms a complete daily skin care treatment against wrinkles. Formulated to combat the signs of aging, it can counteract oxidative stress and free radical damage to the skin's macrostructure. It promotes the natural regeneration of the skin's hydrolipid mantle and stimulates the natural metabolic and enzymatic processes of the skin and its supporting structures.
 This cream is recommended for mature skin but can also be used on younger skin as a preventative treatment against wrinkles and signs of aging.
 To treat age spots and skin discolouration use our Mark Repairing Body Lotion.

Ingredients

Botanical Name	Common Name	Plant Part	Rank	%	Quantity(mg)
Aqua	M. M. Water		1	0	0.0
