Description

For Normal-Oily Skin

Kapha Face Cream is a smooth, light, natural liquid crystal emulsion formulated for the daily skin care treatment of oily skin.

It contains active ingredients that work to normalise and improve the quality of sebum, the skin's natural moisturiser, over time. Regular application reduces the occurrence of blemishes typical of Kapha skin, which is particularly oily, making it silky and radiant without appearing shiny or greasy.

Ingredients

Botanical Name	Common Name	Plant Part	Rank	%	Quantity(mg)
