

**UK Product Name** Genitrac (MA2) **Code Name** MA0002

**Availability** Stock item in UK

**Description** Supports normal genitourinary function, digestion and assimilation.

If the urinary tract isn't functioning properly, toxins can accumulate and allow infections to spring up. Genitrac supports the entire genitourinary tract and digestion assimilation and metabolism. Because Genitrac helps move vital nutrients quickly to cells and organs, it also helps nourish the body's tissues -- reproductive tissue, nutrient plasma, blood cells, muscle and fat tissue.

Large Caltrops is especially supportive to the genitourinary tract by focusing the benefits of the other herbs on it. .  
Amla enhances all the thirteen agnis (digestive fires) and supports the natural diuretic function (Apana Vata), but does not force water from the body like diuretic pills. In other words, it helps eliminate waste from the body but does not over-stimulate the urinary system.  
Indian Tinospora is renowned in Ayurveda for both its cleansing and nourishing properties. It thus provides overall support for the urinary tract.

### Ingredients

Botanical Name	Common Name	Plant Part	Rank	%	Quantity(mg/500mg)
Pedaliun murex Linn.	Large Caltrops	fruit	1	33.17	165.9
