

UK Product Name LiverCare tablets (MA579) **Code Name** MA0579

Availability Stock item in UK

Description Supports the balanced liver function that is essential for detoxification and overall health.

Liver Balance™

According to Maharishi Ayurveda, the liver is governed by Ranjaka Pitta and is composed of five Bhuta Agnis (fires). The five agnis should not be too high, too low or uneven. The more balanced the agnis the more 'intelligent' blood that comes from the liver. In turn, intelligent blood supports physical and mental power, good oxygen flow and a good immune function.

Livercare tablets and the faster acting Livercare Syrup help keep all five agnis in balance, even if a person has an imbalance in Pitta or low agni (digestion). The combination of Boerhaavia and Gulancha Tinospora support the livers detoxificatory actions. The intense bitterness of Bhumiama, Wormwood and Neem give great support to overall liver function. .

Improve These Ayurvedic Factors

This formula:

- Supports the cleansing of the liver to flush out undigested impurities (ama) that can block the assimilation of nutrients.
- Clears channels for toxins to flow out.
- Supports balanced digestion by enhancing the five metabolic functions of the liver (Bhuta Agni).
- Maintains the intelligence of the liver for the production of healthy blood cells (Ranjaka Pitta), bile and nutritional fluids.
- Helps the first step of digestion and metabolism (Jathar Agni) which breaks down food.

Ingredients

Botanical Name	Common Name	Plant Part	Rank	%	Quantity(mg/500mg)
Boerhaavia diffusa Linn.	Spreading Hogweed	root	1	12.8	64.0
Terminalia chebula Retz.	Haritaki	fruit rind	2	6.4	32.0
