**Description** Helps detoxify the whole body to make you feel renewed, clear and healthy.  
 Digestive impurities, chemicals, toxins from the air and water, and stress can accumulate in your body faster than it can deal with them. They may have been there for years.

In ayurveda, these impurities are called "Ama". They disturb the liver, circulation, nutrition, elimination, blood, muscle and fat tissue. Even if you eat healthy food, if your digestion is not perfect, your body is still likely to produce Ama.

While some internal cleansers purify the colon and digestive tract only, Detox detoxifies your whole body by helping to purify the liver and metabolism, to support absorption of nutrients and reduce digestive impurities and to cleanse the sweat glands and eliminative organs to support production of pure nutritional fluid, blood and fat tissue.
