

UK Product Name Prostate Balance (MA1595) **Code Name** MA1595

Availability Stock item in UK

Description Supports overall prostate health and immunity.

A holistic approach to prostate health

A majority of men in UK experience prostate problems at some point during their lives. After the age of 40, testosterone levels start to decrease, causing the prostate gland to enlarge. This can lead to obstruction in the flow of urine and increased potential for infections. From the ayurvedic perspective, prostate problems can result from a sedentary lifestyle, lack of proper nutrients or retention of urine. The Prostate Balance herbal formula is designed to deliver nutritional support over a broader range of targeted areas than ordinary prostate supplements.

This blend of 18 herbs, minerals and fruits helps to keep testosterone levels in balance, maintain the vitality and health of the reproductive system, support immunity and resistance to infection, purify the urine and the urinary tract. Plus, each tablet contains 20% of the recommended daily amount of zinc.

Herbal Masterpiece

The herbs are combined in precise proportions and prepared in the traditional Ayurvedic way. This improves the bioavailability of vital nutrients. It also creates synergy -- the collective benefit is much greater than that of isolated, individual herbs.

-Country Mallow, Shilajit and Zinc Bhasma help balance the amount of male hormone, testosterone, and support sexual desire.

-Shilajit and Country Mallow support the reproductive fluid (Shukra).

-The Bringham ingredients - Zinc Bhasma and Indian Tinospora, support all seven bodily tissues (Dhatus).

-Mountain Ebony and Indian Tinospora, help to maintain the glands at their normal size.

-Indian Tinospora, Sandalwood, Liquorice and Fossil encrinite bhasma help to maintain comfort in the urinary tract

-Indian Tinospora, Zinc Bhasma and Turmeric support immunity in the genitourinary tract.
