

UK Product Name Cholesterol Balance 2 **Code Name** MA1881

Availability Stock item in UK

Description

Helps maintain balanced cholesterol levels

Cholesterol is an important nutrient that is partly absorbed from the diet and mainly manufactured in the body. Cholesterol is used by all the cells in the body especially the brain and nerve cells. It is also a precursor for various hormones, bile acids and vitamin D.

The levels of cholesterol in the body are determined partly by the amount in one's diet but mainly by the mechanisms that govern the manufacture of cholesterol in the cells of the body.

Cholesterol Balance 2 supports the intelligence that governs the manufacture of cholesterol in the body. It also helps maintain balanced digestion and metabolism of fatty foods and a good balance between the 'healthy' High Density Lipoprotein and the 'unhealthy' Low Density Lipoprotein.

Ingredients

Botanical Name	Common Name	Plant Part	Rank	%	Quantity(mg/500mg)
Commiphora mukul (Hook. ex	Guggul	exudate	1	20	100.0

Contraindications/Precautions

Unsupervised long term use of this product is not recommended during pregnancy. We advise that you stop using the product when you suspect that you are pregnant and consult an Ayurvedic practitioner about its further use during your pregnancy.

Over dose and its Management

An intake of 2-3 times more than the recommended dose is generally well tolerated. In case of intake more than this, skip the next dose. In case of discomfort consult your health advisor.

Side Effects and Interactions

None known

Usage

Age Group

Teens and adults

Dosage Form

500mg tablet

Method of Use

Take 2 tablets twice daily.

How Long to Continue Use?

As recommended in the general instruction leaflet

Specific Dietary/Lifestyle Advice

Favour a fibre rich diet; drink warm water throughout the day; if you crave sweets & plenty sweet juicy fruits; avoid citrus fruits and excess salt; season your food with turmeric, cumin, coriander, fennel, & clove; use ghee rather than any other oil in your diet; avoid leftovers & heavy foods such as red meat and deep-fried foods.
