<b>Description</b>	Anti-Wrinkle Formula Anti-Age Cleansing Milk is a creamy, liquid emulsion with a regenerative action, formulated to remove impurities from the skin without stripping the skin's natural hydrolipid mantle. Its specially refined and delicate formulation helps to revive tired skin suffering from the effects of time. Cleansing with this emulsion is guaranteed to be less abrasive and more gentle than more aggressive cleansers such as common soaps, which can worsen dull skin conditions. It contains skin-friendly oils and Ayurvedic extracts to tone and increase skin elasticity.
