## Maharishi AyurVeda - Public Information

**UK Product Name** Availability

**Description** 

MAK Nectar paste (MA4)

**Code Name** 

MA0004

Stock item in UK

For full spectrum super-anti-oxidant power. Nourishes all the major body systems.

Amrit Nectar enlivens the bodies inner intelligence at a very fundamental level and supports all the following factors:

- The three types of mental function; acquisition, retention, and recall.
- Metabolic transformations, digestion, the emotions and their effect on heart function.
- The mind, nervous system, respiration, circulation and elimination.
- Moisture balance, physical structure and strength.
- The sequential transformation of the seven tissues, one into the other —plasma, blood, muscle, fat, bone, bone marrow and reproductive fluid.
- The microcirculatory channels that transport nutrients and energy and can be blocked by improperly digested impurities.
- The production of ojas, the finest product of digestion and the master coordinator between consciousness, matter and immunity.
- The vitality and strength of the mind and body.

### Herbal Masterpiece

Amrit epitomizes the Ayurvedic principles of sanyoga -- precise combination -- and sanskar -- meticulous processing. Thirty six whole herbs and fruits are combined in precise proportions in this powerful formula to create synergy -- a whole that is more powerful than the sum of its parts.

The ingredients read like an honour roll of revered Ayurvedic herbs -- Amla, Haritaki, Indian Asparagus, Aloeweed, Jal Brahmi etc. ... Amrit is still prepared using the age-old formula prescribed in the traditional texts and passed down by generations of Ayurvedic physicians. It takes 250 meticulous steps to prepare. Twenty-two pounds of raw ingredients are required to produce a single jar of the Amrit Nectar.

The herbs are slow-cooked to protect vital nutrients from high temperatures. This precise adherence to tradition and detail ensures that you get an authentic product of unparalleled quality.

## Ingredients

<b>Botanical Name</b>	Common Name	Plant Part	Rank	%	Quantity(mg/10g)
Saccharum officinarum Linn.	Sugar Cane	juice of stem	1	62	6,200.0
Aqua	Water		2	16	1,600.0
Cow ghee (clarified butter)	Clarified butter		3	5.75	575.0
Phyllanthus emblica L.	Amla	fruit rind	4	4.55	455.0
Honey	Honey		5	4	400.0
Terminalia chebula Retz.	Haritaki	fruit rind	6	2.28	228.0
Glycyrrhiza glabra Linn.	Liquorice	root	7	0.39	39.0
